

Foundation Membership

The Symphony Software Foundation is an independent, non-profit organization of global financial services and fintech leaders. We promote an open source ecosystem around the Symphony platform to foster disruptive innovation, collaboration and workflow productivity.

Who should join?

-  Buy- and sell-side firms using and developing on the Symphony platform
-  Financial data and technology providers leveraging Symphony to channel content to their end users
-  Fintech firms looking to build bots or integrate with the Symphony platform
-  Thought leaders in financial services messaging, open source or unified communications

Membership benefits

- ✓ Access to the Open Developer Platform for developing open source apps, bots and integrations on Symphony and fostering interoperability in financial services.
- ✓ Influence the Foundation’s strategy and roadmap by participating on its board of directors and the Engineering Steering Committee.
- ✓ Participate in working groups that influence the design, standards and architecture decisions of Foundation projects.
- ✓ Access to our world-class open source technical and legal experts, enablement campaigns, open source readiness programs and new contributor/committer on-ramps.
- ✓ Leverage the Foundation’s marketing efforts: conferences, co-promotions, sponsorships, hack-a-thons, mailing lists, social media outreach and affiliate networking.
- ✓ Exclusive insight into industry surveys and first-mover trends.
